OUR EXPERTISE

A UNIQUE INTENSIVE INFUSION TECHNOLOGY

Based on an infusion process, Rouages' **unique technology** makes it possible to obtain **aromatic profiles without the use of chemical solvents or additives**, preserving the **potency** of plants, spices and fruits.

This innovative process ensures that our infusions retain **the full aromatic spectrum** of the raw materials used.

OUR SOLUTIONS

AROMATIC RANGE

We create our intense infusions using **fresh plants, fruits, flowers and spices, in a water-based solution (water and juice)**, to give your recipes an authentic flavour.

SENSATION RANGE

Our ingredients give your finished products **specific, targeted properties** (bitterness, warming, smoky, etc.).
